Black & Gold Bare Bulb Industrial Wall Light

Product specification

Backplate diameter: 12 cm / 4.7"
Projection: 19 cm / 7.5"

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

A curved iron arm carries an exposed E27 lampholder away from a circular wall backplate. There is no separate shade, so the selected bulb forms part of the visible design. Four Black and Gold finish combinations are available. The fitting is hardwired; the bulb is not included.

The exposed bulb forms part of the visible outline; its shape depends on the bulb selected.
