Caelen Crystal-Effect Ceiling Light

Product specification

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

Caelen pairs a rounded black metal cage with clear faceted decorative details. This ceiling version sits beneath a compact round ceiling rose, with the central E27 bulb visible through the open structure. One warm-light LED bulb is included. The 17 cm height refers to the decorative body.

The 17 cm figure describes the decorative body, not a verified ceiling-to-bottom measurement.

The clear details are described as crystal-effect, not genuine crystal.
