Marlow Linear LED Pendant Light

PRODUCT SPECIFICATION

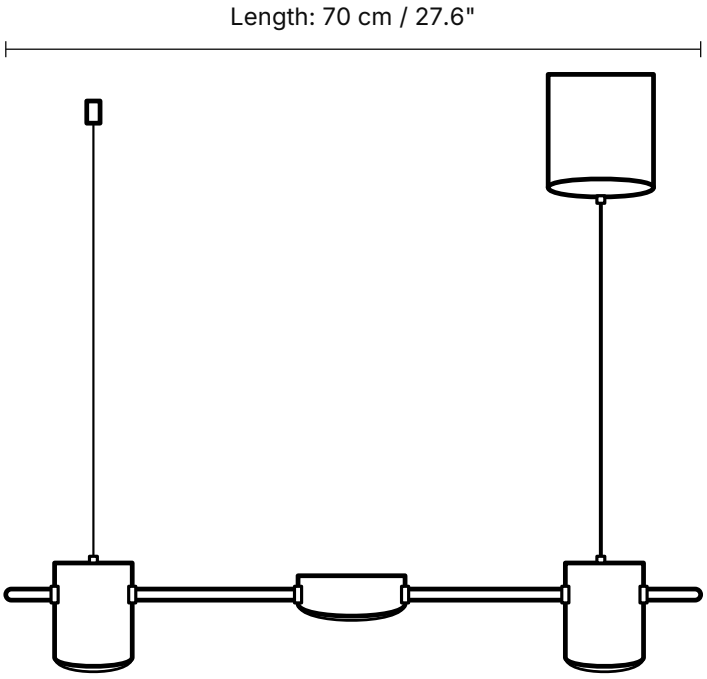

Lighting, considered.

Dimensions, materials and product options.

LUNARIA
LIGHTING LONDON

Marlow Linear LED Pendant Light

L 70 cm

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

Marlow is a ceiling pendant built on one slim metal rod, which carries a row of small downward lights in two shapes that alternate: cylinders and flat discs. The LED is integrated in every head and gives three whites, selected at the wall switch. Two lengths are offered, each in Black or Gold, with a cylindrical ceiling rose in the same finish.

The length is measured from tip to tip of the rod; the drop, from the ceiling to the underside of the heads.

Each fine wire has its own small ceiling fixing in line with the ceiling rose, directly above the cylinder it holds: one wire on the 70 cm, two on the 120 cm.
