Opal Globe 6-Light Chandelier

Product specification

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

A semi-flush chandelier with six frosted opal-white glass globes on an iron frame. Gold and Black finishes share the 70 cm overall diameter and 50 cm height. The ceiling plate is 12 cm across. Each globe surrounds an E27 lamp position; the six bulbs are not included.

The 70 cm diameter is the overall spread of the six-globe fitting, not the diameter of an individual globe.
