Rowan Wave LED Pendant Light

24 cm

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

Rowan Wave is a ceiling pendant formed from one painted metal ribbon, looped into a wave and suspended on two fine wires. A light strip with integrated LED runs along the ribbon and offers three white tones. Two widths are offered, each in Black, White or Gold, with a ceiling rose in the same finish.

The drop is adjustable; the figure is measured from the ceiling to the lowest point of the ribbon.

Every finish has the same three white tones; black, white and gold describe the fitting, not its light.
