Rustic Antler 6-Light Chandelier

Product specification

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

This six-light chandelier uses sculpted resin antlers around an iron structure. The branching outline has a wood-effect finish, while a chain forms the ceiling suspension. Six E14 light positions sit around the frame. The decorative antlers are moulded resin rather than natural antler or carved wood.

The antlers are sculpted resin rather than natural antler or wood.
