Senra Braided Bamboo Pendant Light

38 cm

Illustrative outline. Dimensions are stated values; drawing is not to scale.

DESCRIPTION

Senra is a shallow bamboo pendant with an asymmetric, wavy outline and an open weave. A black flex suspends the natural-coloured shade from the ceiling. Light passes through the crossing strips and the lower opening, so the separately chosen bulb influences the visible light pattern.

The flex length is not the complete ceiling-to-shade drop.
