# Wren Glass Globe Pendant Light

Product specification

Illustrative outline. Dimensions are stated values; drawing is not to scale.

## DESCRIPTION

Wren is a single ceiling pendant: one plain glass ball under a stepped metal cap, on a slim stem, hung on one black flex from a round ceiling rose. The glass is offered in Smoky grey, Amber or Clear. It takes one E27 LED bulb, which is not supplied, and each order is one pendant.

The 80 cm is the flex alone: the stem and the glass ball hang below it, so the drop from the ceiling is longer.

The bulb in the product photographs illustrates the light; no bulb is supplied.
